DETERMINE RETURN ON INVESTMENT PLUS ANNUAL & LIFETIME VALUE OF CUSTOMERS

Select and complete one of the ROI calculators each month to determine the number of transactions needed to begin turning a profit. Also, compute the annual and lifetime value of each new customer.

\$ Average Sale or Gross Profit Per Sale	X	# Average Times Customer Buys Per Year	=	\$ Average Annual Value of New Customer	X	# Average Number of Years Customer Buys	=	\$ Average Lifetime Value of a Customer

When evaluating the success of each marketing campaign, review the value of each new customer. These new clients will also be referring your business, creating even more value.

IMPLEMENT INTERNAL MARKETING STRATEGIES

Implement internal marketing strategies to ensure each campaign accomplishes the four goals of advertising. Below find several recommendations.

1. INCREASE THE NUMBER OF SHOPPERS TO YOUR BUSINESS OR WEBSITE

- Consistently advertise your unique product or service offerings to a significant number of potential customers with adequate frequency to stimulate action.
- Select “hot” selling products or services to include in your advertising.
- Include a full assortment and variety of products or services and ensure sufficient inventory and personnel to assist all customer requests.
- Make sure the message, offer or price is competitive and compelling, and the terms easily understood.
- Coordinate your online efforts to mirror your traditional advertising campaign.

2. ENCOURAGE SHOPPERS TO INCREASE THEIR SPENDING

Offer Assistance and Recommendations to Each Shopper

- Provide guidance and suggestions for additional purchases based on personal experience, popular items and customer feedback.
- Share product and service information, as well as compare and contrast options.

Display Items to Maximize Sales

- Prominently display advertised products in a desirable manner with easy access.
- Display accompanying products together to encourage multiple and add-on sales.

Create Signs to Guide Buyers

- Use signs to describe and identify advertised products to peak interest and to ensure they are easily located.
- Make sure signs communicate the price and savings of the products or services offered and their unique features and benefits.
- Ensure all advertising and signage is consistent in theme and color incorporating your business's style and promotional theme.
- Print many generic “sale” and “as advertised” signs so they can be recycled for future promotions.

3. INVITE SHOPPERS TO RETURN TO YOUR BUSINESS AND BUY

- Include an incentive at the end of each transaction (coupon, discount card, frequent purchase incentive, etc.) to encourage future purchases.
- Collect information about your customers: names, street and email addresses, preferred products, as well as phone numbers to use for future marketing efforts.
- Stay in touch with customers to keep them aware of new or special products or services and regularly invite them to shop your business.
- Thank every customer within two days of their purchase with a phone call, note or email. Include an offer for them to purchase again and/or encourage them to refer others to you.
- Promote your brand by displaying your logo and brand benefits throughout the store, on bags, employee shirts, cards, racks, signs and automobiles.

4. ENCOURAGE SHOPPERS TO RECOMMEND YOUR BUSINESS TO OTHER

- Encourage customers ~ at your store, in your invoices or online ~ to post positive comments on your website, a review site or on social media.
- Incorporate ongoing referral programs as a part of your marketing strategy.
